

To whom it may concern, My name is Fran Clark . I am an AFTRA memberbut more importantly, I am a citizen watching my voice erode. It is amazing to me to see the impact of the conservative leaning FCC and how it stifles the free flow of information. The more consolidation the less opinion. As media conglomerates become bigger the more it is influenced by the self interest of big business and the less it serves the public. It was purely amazing to see Michael Powell turn logic on its head and convince people that the public is best served by allowing a few companies to become very large and control the flow of information. It is a dangerous place where we are headed with this action. Communism anyone? Ironical isn't it that communism with its tight control of ideas is considered far left and yet when it serves the interests of the far right in this country it is embraced. Please do your job and protect the best interest of the public. That is, after all, what you are being paid to do. Thank you. Sincerely, Fran Clark
